PUBLIC NOTICE TO MARINERS.

I AM DIRECTED BY THE HON. THE Minister of Marine and Fisheries of the Dominion of Canada to publish the following Notice to Mariners, which has been issued by the Hydrographer to the Admiralty, London.

R. W. PEARSE,
Lands and Works Department, Victoria, B. C., 23d Oct., 1871.

Notice to Mariners.

(No 68.)

NORTH AMERICA—WEST COAST.

Buoys at Entrance of San Francisco Harbor.

Information has been received that three Fairway buoys have been placed to indicate a safe channel across the bar, and entering San Francisco Harbor.

These buoys are placed in line with Fort Point, bearing N. E. ¾ E.

OUTER BUOY, black and white, is outside the Bar in 18½ fathoms, with the Middle buoy bearing N. E. ¾ E. 9½ miles and Fort Point 10 miles distant.

MIDDLE BUOY, black and white, is in 9½ fathoms, with the Inner buoy bearing N. E. ¾ E., 2½ miles, and Fort Point 6 miles distant.

INNER BUOY, black and white, is in 20 fathoms between Bonita and Lobos points, with Fort Point bearing N. E. ¾ E. 2½ miles.

FOUR FATHOM BANK.—Also that the four fathoms bank is marked by a red-and-black buoy, with the buoy on the east end bearing N. E. by E. ½ E., 3¼ miles from the buoy off the east end of the bank.

The east buoy is in 5½ fathoms, W. by S. ½ S., 1¼ miles from Bonita Point.

It is said the west buoy cannot be depended on as remaining in position.

(All Bearings are Magnetic—Variation 15° 30' easterly in 1871.)

By Command of their Lordships
GEO. HENRY RICHARDS,
Hydrographer.

Hydrographic Office, Admiralty, London,
28th August, 1871.

This Notice affects the following Admiralty Charts—San Francisco Harbor, No. 599.

MRS. MAHONEY.

oct23

New Advertisements.

To the Electors of Vancouver Island District.

GENTLEMEN:—In response to the solicitation of a number of prominent gentlemen residing in the different settlements of your Electoral District I offer myself as a candidate to represent your interests in the House of Commons, I have, after mature consideration, consented to do so, and have now the honor to solicit your suffrages at the approaching election.

The measures that a member of the House of Commons may be called on to deal with being different from those of a member of the local legislature, belong in their nature more national, it is doubtless expected that I as a candidate should advert to at least some of them that more directly concern your interests. I will say, then, that having been one of the earliest advocates of a Canadian Transcontinental Railway, I shall, if elected, consider it to be my paramount duty in view of making it a grand national success, to insist that the Terminus shall be at Esquimalt, and that the line shall traverse the entire south-Eastern Coast of the Island from Johnson's Straits

Under the Terms of Union with the Dominion, it is the province of the local legislature, and not of the Dominion Parliament, to decide as to the kind of tariff that the people of British Columbia deem to be best suited to their varied industrial interests, during the next ten years. Should, however, the question come before the Dominion Parliament, I shall endeavor to have the tariff so framed as to meet with the concurrence of the agricultural, mining, and commercial interests of your district.

As the Dominion now possesses exclusively the right to manage our postal and telegraphic affairs, I shall endeavor to secure for the Eastern Coast a bi-weekly mail steamer of a superior class to the one now plying on the coast, and also better mail facilities generally; and as I deem it to be of great importance commercially to have the most rapid means of transmitting intelligence between Nanaimo and Victoria, I shall urge on the Federal Government the importance of the early construction of a telegraph line to connect the two principal towns in the Province.

The increasing importance of the commerce of the Gulf of Georgia renders it necessary to have more Lighthouses. I shall therefore make the most strenuous exertions to induce the Federal Government to build a lighthouse at Nanaimo at once, and to erect others elsewhere, as soon as possible, to insure greater safety and certainty in executing the Ship.

With respect to the Indians, I will urge that they be settled on Reservations, under the superintendence of Government Agents, where they may, with the assistance of the Government, be taught the arts of civilization, and thus have their social, moral, and religious conditions rapidly improved.

The question of the early construction of a Marine Hospital at Nanaimo, I deem to be deserving of serious consideration.

The Geological Survey now begun will doubtless be of great practical advantage to the country—and anything that I may be able to do to insure the geological exploration of the vast mineral wealth of your district shall not escape my attention.

The fisheries along our coasts promise to become very profitable, and as the Dominion Government has agreed to extend its protection and encouragement to that valuable and important branch of industry, I will endeavor to secure for your district its full share of any aid that may be appropriated for that purpose.

Not being able at this time to explain my views at greater length, I will take an early opportunity to meet you personally and collectively in the different settlements, when I may freely discuss your particular questions of Provincial and Dominion character.

In conclusion, Gentlemen, if you should do me the honor to return me to the House of Commons as your representative, I pledge myself to faithfully serve your interests to the best of my ability.

I have the honor to be, Gentlemen,
your obedient servant.

ROBERT WALLACE.

Victoria, B. C., August 3d, 1871. aug8

To the Electors of Yale-Lytton and Kootenay District.

GENTLEMEN:—In compliance with the request of a number of the electors of the above district, I have much pleasure in offering myself as a candidate for the honor of representing you in the House of Commons at Ottawa.

Your interests being so closely identified with my own affords you the surest guarantee that they will at all times receive my best attention and support; but as it is difficult to say at present what matters may come before the House at Ottawa, this session, I shall confine my remarks to a few leading subjects, which I consider most essential to the welfare of this Province, and especially that portion of it which I seek to represent.

I shall endeavor to procure a regular and efficient Mail Service throughout the populous portions of the District.

I shall support any measures brought forward by the Local House for the establishment of a Liberal School System throughout the Province and the appropriation of the necessary funds from the general revenue.

I am in favor of the appointment of County Court Judges in this Province.

I am opposed to the Civil List Act in its present form and should it become matter for legislation at Ottawa I shall advocate its repeal or amendment.

I shall give my support to the Dominion Government so long as it continues fairly and honorably to carry out the terms of Union, especially with regard to the construction of the Canadian Pacific Railway.

In conclusion I promise that should you do me the honor of entrusting me with your interests, I shall at all times endeavor to prove myself worthy of your confidence.

I have the honor to be, Gentlemen
your obedient servant
C. F. HOUGHTON.

VANCOUVER ISLAND DISTRICT.

To the Electors of Soake, Lake, Saanich, Cowichan, Salt Spring, Nanaimo and Comox.

GENTLEMEN:—While travelling through your district in July last, I was the recipient of very great encouragement to offer myself as a Candidate for the Parliament of the Dominion, of which this Province now so happily forms a part.

In soliciting your support at the forthcoming election it becomes my duty to express my views on Dominion politics, having a direct bearing upon the interests of British Columbia, which I shall do as briefly as possible.

I shall be a staunch supporter of the present Government of Canada so long as that Government shall administer the affairs of this Dominion in general, and of this Province in particular, in a satisfactory manner.

Knowing the feasibility of the Canadian Pacific Railroad from personal observation along the greater part of the probable line of route, and having advocated such an enterprise in my Ottawa Journal, published in Ontario, as well as on this coast for the past twelve years, I shall endeavor, by every means in my power, to bring that grand undertaking to a successful termination at Esquimalt or some other harbor on Vancouver Island.

I may here say that I am not in favor of introducing Coolie labor either on the Railroad or other public works and will strenuously resist any attempt in that direction.

Should the Tariff problem not be solved by the Local Legislature, but a modification of the Canadian Tariff, in so far as agricultural produce is concerned, recommended, I shall make every possible effort to secure its adoption by the Federal Parliament.

I am fully of the opinion that the Federal Government will place vast commands for a thoroughly efficient boring from Sooke to Comox long before the re-opening of Parliament; should this, however, not be the case I shall, if elected your representative, see to it that every settlement is duly canvassed in the interests of the Island.

The subject of Immigration, is one of great moment and shall always have my most earnest support both in the House and elsewhere—with increased demand for agricultural produce, farm laborers will be required in every settlement. These will soon locate on unoccupied lands, together with men of small capital and both in turn become producers. Their places will also have to be filled by others so that a steady stream of immigrants from the Eastern Provinces particularly, would be the greatest possible boon to this portion of the Dominion.

The early commencement and completion of a Dry Dock at some Island port, and 1 think Nanaimo has a strong claim upon such a work shall not be overlooked.

I shall advocate Vote by Ballot at Municipal, Local and Federal elections till that great reform becomes the law of the land.

Telegraphy, Lighthouses, Harbor Improvements, Hospitals, Asylums, Penitentiaries, Fisheries, Geological and other surveys, together with the Indian question and other subjects that will be continually presenting themselves, shall have my constant consideration and advocacy wherever conducive to the material prosperity of the Province in general and my constituents in particular.

I rest my claims upon your support gentlemen, on my long residence in the Eastern Provinces and on this coast; my intimate knowledge from actual travel of the wants of every agricultural and mining districts of the province—my unswerving support of Confederation and the Railroad since '65, and my having no special connection with any particular interests, commercial, agricultural or mining, I am enabled thus to look upon them all from an independent and impartial stand point, and in so doing, I feel that I but express the views of this province of almost Dominion sentiments to the proud elevation it will soon attain as the Western outlet of the Great Dominion.

I have the honor to be, gentlemen,
yours very obediently
JOHN JESSOP.

THE UNK WEED

REMEDY,

—OR—

OREGO

RHEUMATIC CURE.

HISTORY.

This Remedy is composed of the active principle of the Unk Weed, Eng.—Thaspium Cordatum Originis, Lat.—Indigenous to Oregon. Grows most abundantly and perfectly in Washington Co.

PROPERTIES, Etc.

It contains an ACTIVE VOLATILE Principle, extracted by Ether, and a bitter TONIC Principle, soluble in Alcohol.

Medical Properties and Uses.

It is the most sure and speedy cure for *Rheumatism, Rheumatic Gout, and Rheumatic Pains* of all kinds that was ever introduced in the Materia Medica. THE UNK WEED REMEDY, as prepared by us, in consequence of the existing bitter principle, possesses the necessary virtue of being a

POWERFUL TONIC,

Promoting the Appetite and Invigorating the whole Digestive Apparatus, thus Building up and Strengthening the system, while at the same time the volatile principle, being absorbed in the blood, acts specifically on the Rheumatic Poison, removing it from the circulation and system.

There are a few remedies known to the Medical Profession which will remove the Rheumatic Poison from the blood, but whose action is so powerful in depressing the system of the already enfeebled Rheumatic patient, that their use has to be abandoned before specific effects are obtainable; hence the want of success in treating this prevalent, and in consequence heretofore incurable disease. Unlike these Medicines, already known, the

UNK WEED REMEDY,

though producing as powerful and as active effects on the blood and system in removing the Rheumatic Poison, also possesses a strong Tonic and recuperating element which admits of its continued use even by the most Delicate and debilitated. Thus we have the combination for the first time of these Two Necessary Elements in one remedy, which accounts for its Superior and never-failing curative effects in

Rheumatism, Rheumatic Gout, and Rheumatic Pains of all kinds.

Wednesday, November 8, 1871

New Brunswick Amending the Terms of Confederation.

When discussing the question of the tariff, our local cotemporary has always maintained that it was not possible for us to get an amended tariff, for no other reason than that it would be altering the terms of Confederation; and if altered in our favor, the terms would have to be altered in favor of New Brunswick and the other Provinces. Now, it so happens that a delegation from New Brunswick has just been at Ottawa to get their terms of Confederation altered,—that is, an additional subsidy,—and has returned highly pleased with the Federal Cabinet. If we can judge by the utterances of some of the Opposition journals, we must conclude that they have got the promise of all that they asked, and now only wait for the meeting of Parliament to get a check for the money. Now, we don't know anything of the merits of the proposed new subsidy for New Brunswick. We can only presume that it is proper that it should be paid, or else the Ministry would not be prepared to recommend it to Parliament. There is this, however, about the matter, that the bugbear that has from time to time been raised here and on the other side, about altering the terms of Confederation, has no weight with the present Government. It is the justice and utility of an amendment that recommends its adoption; and that is true statesmanship. We are glad to see such a broad statesman-like policy,—it is really the policy of a Party of Progress. It is asserting that no superstitious veneration for written statutes, charters, or institutions ought ever to stand in the way of just and useful legislation. A few years ago we had nearly as much veneration manifested by Americans for the Constitution of the United States as religious people have for Holy Writ. But no sooner did the Great Civil War commence, than necessity taught Americans that their Constitution, like other things, must suit the times or be of no use. The necessities of the Dominion are teaching us the same thing to-day. If the terms of Confederation already made don't suit New Brunswick or British Columbia, let them be altered to suit; whether it be by granting an additional subsidy or a modified tariff. The Parliamentary Opposition will doubtless make a stand against another subsidy for New Brunswick as a violation of the compact of 1867. We are bound to believe that they think they will be right in doing so. But the only ground on which they can reasonably oppose it is that by giving an additional subsidy to New Brunswick, an absolute injustice will be done to other Provinces. But if they fail to show that fact, but merely harp on the compact of 1867, their opposition will amount to obstruction—to a species of Conservatism worse than Toryism.

The Elections.

The most enthusiastic supporter of the Liberal party—the Party of Progress—could not wish for greater success than has perched on the Liberal banner during the present election. Already has there been a large majority of Liberals elected—a working majority—enough to do the business of the country, promptly and well. We congratulate the country on the event, for it has done nobly. A new day now dawns above the political horizon,—and it cannot but be a happy and a prosperous one. The old system of a Government on one side and the people on the other, has all but disappeared. With the new Ministry old things will have passed away and all things will have become new,—and the Party of Progress in the ascendant. As for the so-called Reformers, about which every one is laughing at the *Colonist*, there is only one returned—we had almost said elected—and that is for Nanaimo. What a miserable defeat indeed for the politicasters. The last returns from the Mainland report those well known Liberals, Humphreys, Jamieson, Smith, Robinson, and Coxon elected. We have only to wait till next week to hear from Cariboo, whence will come three good Liberals too, but not a single Reformer. From Kootenay, too, we ought to hear in about two weeks. It will return staunch Liberals as a matter of course. We really pity the bogus-Reformers. They have been beaten, horse, foot, and artillery, and have no earthly show to raise their heads till 1875.

The Los Angeles Riot.

LIST OF THE KILLED.

LOS ANGELOS, October 25.—The following is a list of the Chinese victims of the riot last night: Dr. Gene Tong, shot; Wa Sin Quae, three shots in the abdomen and legs; Chang Wan, hung; Teong Qual, hung; Joung Burrow, shot; Ah Long, hung; Wong Chim and Hung Fong Wong, shot stabbed and hung; Ah Loo, hung; Ah Fee or Wan Fee, hung; Da Kee, hung; Ho Hing, hung; Ah Wan, hung; Wang Chee, shot and hung; the eighteenth name unknown, a servant at Pico House, hung. Dr. Gene Tong was the most popular Chinese physician in the city. There are eight Chinese wounded, one, or perhaps two will not recover.

The amount of money stolen from the Chinese is stated, at from $6,000 to $15,000 The amount probably does not exceed $10,000 in coin, while in goods and other valuables, about half this amount was destroyed or stolen.

The roofs of their houses are chopped og torn up in places, and the doors and walls are riddled with bullets. Two attempts were made to fire the buildings last night, by throwing fire-balls through holes in the roof.

The funeral of Robt. Thompson, killed last evening, took place this afternoon. The eighteen Chinamen were also buried to-day.

REPLY.

To James Trimble, A. R. Robertson, B. P. Griffin, G. C. Gerow, D. Spencer, and R. Lewis, and others, signers o the foregoing.

GENTLEMEN:—I beg to return you my sincere thanks for the confidence you repose in me, as expressed by your desire that I should be Mayor of the city for the ensuing year. I look on the office as one of honor and importance, yet I had no intention of soliciting your support for that, or any other office at present, but after receiving a requisition like the one now before me, signed by so many influential and respectable citizens, I with pleasure accede to your wishes.

If elected, my aim will be to serve you faithfully and impartially.

I have the honor,
to be, Gentlemen,
your most obdt. servt.
W. J. MACDONALD.

Kept constantly on hand for sale. oc26

The Daily Standard

Wednesday, November 8, 1871.

County Court.

[Before A. F. Pemberton, Esq.]

TUESDAY, November 7, 1871.

Wm. McDowell vs. C. King.—Suit for $170, balance of promissory note. Judgement deferred for a week.

F. Reynolds vs W. G. Lawson.—$69 97. Adjourned for one week.

Thos. Carrington vs. Mrs. Tuite.—$20 12½ Adjourned for one week.

Mrs. Hosking vs. C. H. Robinson.—Judgement in favor of plaintiff for amount and costs.

G. H. W. Brown vs. Heal.—$100, value of a horse. Postponed until 5th December.

HON. MR. LANGEVIN.—Some Quebec office-seekers and office-holders, out of gratitude for benefits in the past and with a keen expectation of future blessings, are endeavoring to get up a banquet to the Hon. Mr. Langevin, upon the occasion of his return to that city after scaling the Rocky Mountains and gazing upon the Pacific Ocean. Whatever may be their success it will be interesting to notice the manner in which the not incloquent Minister will now refer to the Washington Treaty. Will his post-prandial utterances be as defiant as when upon a less exciting occasion he went so far as to condemn the diplomacy—or want of diplomacy—of his master? Will the assertion that the Canadian Governmet has protested be repeated, and will the condemnation be re-affirmed? Or, as on many other occasions since that time and more light have worked a change in this Minister's convictions regarding this question? It may not be too much to predict that *in vino veritas* will hold good here; and the last statement of Mr. Langevin will be taken as the one representing the policy of the Government. He can hardly be reticent upon such an important public matter, in which his constituents take an unusual interest.—*Globe.*

HARD TIMES IN ALASKA.—A San Francisco paper says: The wail of "hard times" is wafted to us from the land of icebergs and ivory. A complaint of the scarcity of anything else but money might well arouse the public generosity, already respectably elevated. And this is the complaint from Alaska. The people there, both refugees from civilization and those to the manor born, are in want of "hard cash." They have little or none of that magic article, and, to make their grief inconsolable, they see no way of getting it, nor do we. Commerce has closed upon them, postal facilities are in a dilapidated condition, the Fourth of July in the far distance, tobacco scarce and whisky scarcest of all. Of the two latter articles San Francisco might well afford the unhappy Alaskans a cud of comfort and a draught of "O let us be joyful."

THE Adriatic, the last steamer built of the old Collins Line, which was sold some years ago to parties in England, has, after many vicissitudes, had her machinery taken out at Liverpool and been altered into a sailing ship. She recently sailed from the Mersey for Rio Janeiro with a cargo of coal. A Liverpool journal says: "As she was towed down the Mersey, her enormous size and 'ship-shape' appearance excited universal admiration, and it seemed something like extravagance to degrade such a splendid looking vessel into a coal hulk—which is, we believe, her ultimate destiny.

FLOUR.—Let the public be their own judges—visit Piper's and ask for the bread made from the Johnson street Mills flour. We have had a sample loaf sent us, sufficient for our whole staff, and we have no hesitation in writing, no bread made in Victoria from imported flour (and the best comes to this market) can exceed it. It is doubtful if it can be equalled either. Support native labor, home grown wheat, and Provincial manufactured flour.

A STEAMER SOLD.—The sidewheel steamer Fly, built on the ruins of the old Cariboo several years ago, and which has been used in the American coal trade by the late Captain Frain, was knocked down yesterday by the auctioneers, Plummer & Pagden, to Mr. C. T. Millard for $1325. There was another bidder, a gentleman from the Sound. It is said she will be put into the Inlet towing trade. The remainder of the stuff fetched about $200.

THE FASHIONS.—Messrs. Turner, Beeton & Tunstall, of London House, received per express yesterday, a large shipment of autumn goods, amongst which are Alexander's gloves, millinery in all the new styles, including the Dolly Verden Hat, the popular novelty in Europe this season; Dolly Verden costumes, Dolly Verden sashes and caps; also choice lace goods, waterproof costumes, &c. *

FOR SAN FRANCISCO.—The Prince Alfred, Capt. Sholl, started on her voyage for San Francisco yesterday afternoon at half-past four, but as the tide was low, took the ground off Hospital Point, where she will probably remain till this morning between 9 and 10 o'clock, as the night tide is only a half one, and the water will have to rise sufficiently to allow her to cross the bar.

AUSPICIOUS 1872.—Its present outline shrouded in mystery like an impenetrable Victoria fog, settled upon sea and land, with a sky above so clear and beautiful. Each consecutive year since 1858, has appeared in various forms, with the same pertinacity the announcement that Pocket and Office Diaries, and Almanacs are ready for the Season.—T. N. HIBBEN & Co. 3m*

FOR THE EAST COAST.—The Douglas left at 7 o'clock, yesterday morning, for Nanaimo and way ports, with a few passengers and a fair amount of freight. To-morrow she goes to the Fraser River sandheads to complete the laying of the buoys, and will be down here again from Nanaimo on Saturday evening.

WHALE OIL.—It will be seen that *ile* is up in the East. Recent disasters to the whaling fleet have run it up from 40 cents to a dollar a gallon. Some transactions were made here just before the news reached; one firm had purchased twelve or thirteen thousand gallons at the usual rate.

FOR NEW WESTMINSTER.—The Enterprise, Capt. Swanson, left at 9 o'clock, yesterday morning, for New Westminster, with about 20 passengers, among whom we observed Messrs. Miller, Boyd, burns, W. Wilson, Rev. Mr. Crosby and Capt. Ella.

FROM THE INLET.—The Grappler, Capt. Devereaux, arrived at daylight, yesterday morning, with the ship Clara Hargraves in tow, from the Hastings Mill, Burrard Inlet; the ship is bound for Melbourne.

FOR THE SOUND.—The North Pacific Capt. Starr, left at noon yesterday, for Port Townsend and up-Sound ports, with a fair number of passengers and a considerable amount of freight.

NEW SETTLERS.—Two or three families who arrived here from California on the Prince Alfred, went up in the Enterprise yesterday morning; they intend settling at Semiamo.

City Council.

The Council met last evening, at 8 o'clock. Present—Councillors McMillan, Heathorn, Gerow and Carey.

On motion, Councillor Carey took the chair.

The minutes of the last meeting were read and adopted.

VANCOUVER STREET.

The following tenders were received for the grading and gravelling of this street from Burdett Avenue to Labouchere street: Willis Bond, $685; George Stelly, $660. Awarded to George Stelly.

JOHNSON STREET.

The following tenders were received for the gravelling of Johnson street from Blanchard to Quadra street: A. Beswick, $275; G. Stelly, $259; M. Wells, $232 50. Awarded to M. Wells.

CISTERNS.

Tenders were received for the construction of the proposed fire cisterns: From D. Shade, $370 each cistern, with the proviso that if rock was struck which required blasting, that he should receive $15 per foot in depth extra. From Willis Bond, $105 each.

Moved by Councilior Gerow, and seconded by Councillor Heathorn, that the contract be awarded to Mr. Shade for the construction of one cistern, viz., at the intersection of Blanchard and Pandora streets. Carried.

COMMUNICATION.

A communication was read from Mrs. Snow petitioning the Council that certain Pound fees on some cattle belonging to her which were impounded on Friday last, be remitted; stating that the high wind which prevailed on that day blew down her fence, and that the cattle strayed into the city before she was aware of it.

On motion of Councillor Gerow, the Council remitted the dues, Mrs. Snow paying $3 for feed supplied whilst the cattle were in the Pound.

CORMORANT STREET.

The Street Committee's report on Mr. M. Wells' contract on Cormorant street was read. Said report stated that the work had been done in an excellent manner, and to their entire satisfaction.

AUDITOR'S REPORT.

The report of Mr. Holmes, the Auditor, was read; it stated that the balances on hand at the end of each fiscal year have been separately determined and found correct. The question in reference to the assets and liabilities of the Corporation from the year 1867 to the 28th of February, 1871, was deferred until this evening.

ADDRESS TO THE MAYOR.

Councillor Heathorn moved that a Committee be appointed to draft an address to His Worship the Mayor on his retirement from office; seconded by Councillor Gerow, and carried unanimously.

The Chairman appointed Councillors Heathorn and Gerow the Committee to draft the address.

The Council then adjourned till Wednesday evening at half-past seven.

U. H. & L. COMPANY.—The annual meeting of the U. H. & L. Co. for the purpose of electing officers for the ensuing year took place last evening, when Mr. C. E. Bunting was elected Foreman; J. Vaughan, 1st Assistant; W. H. Huxtable, 2nd Assistant; E. Grancini, Treasurer; G. W. Cohen, Secretary, all re-elected.

FOR SKEENA RIVER.—The Otter will leave for Skeena River this morning between five and six o'clock. Three passengers go in her Mrs. Nelson, Mr. Fell, Jr., and Mr. W. McNeil.

By Electric Telegraph.

SPECIAL TO THE DAILY STANDARD.

LAST NIGHT'S DESPATCHES.

EASTERN STATES.

MONTGOMERY, Ala., Nov. 6—At a Radical meeting to-night, combustibles used on an anvil exploded, killing two men, wounding several seriously.

ST. LOUIS, Nov. 6—A counterfeiters' den, a few miles from Kansas City, was broken up yesterday; Joe Reilly and Tom Ballard were arrested. Harry Cole and Josiah Mier, the latter leader of the gang, were captured, but escaped. A large quantity of tools, pressdies &c., was captured, including $1000 in U. S. notes, and a lot of fibre paper, such as is used by the Government.

NEW YORK, Nov. 6—A number of prominent gentlemen, including Chas. O'Connor, John E. Develin and Oswald Attenverter, sent a communication to the Emigration Society, directing attention to the report that the emigrants on Ward's Island were falsely registered, and asking that measures be taken to prevent these men voting.

Cards are published by O'Donovan Rossa and Sigel, soliciting support on behalf of the other; Rossa states that Sigel promises to give one-third of the patronage of his office to Americans, one-third to the Irish, and one-third to Germans. He calls upon citizens to look out for the count; if he gets a fair show he thinks he can defeat Tweed.

An order for the release of one of the prisoners in Ludlow street jail, signed by Judge Barnard, has not been complied with by the Sheriff, who has taken legal advice.

BOSTON, Nov. 6—The news of the disaster to the whaling fleet has advanced whale oil from sixty cents to a dollar per gallon. Boston Insurance offices had little if any risks, the New Bedford offices lost a million.

Master Van Blick, 17 years old, has been arrested on suspicion of stealing six thousand dollars worth of jewelry from his father in Brooklyn.

EUROPE.

BERLIN, Nov. 6—The Federal Council approved the draft of the coinage bill, which is to be submitted to Parliament.

General Despatches.

THE SHIPPING AND TONNAGE OF THE UNITED STATES.

WASHINGTON, Oct. 31.—The Chief of the Bureau of Statistics reports that the number of vessels and tonnage of the United States in June 1871, as compared with the corresponding date of 1870, shows a gain of over 76 sailing vessels with a tonnage of 32,129; 158 steam vessels of 34,106 tons, 955 unrigged vessels of 99,626 tons.

THE BILL FOR THE ABOLITION OF THE PURCHASE SYSTEM IN THE BRITISH ARMY.

LONDON, Oct. 31—The *Gazette* this evening publishes the new regulations of the bill for the abolition of the purchase system in the army. The main feature of the regulation is the rigid examination to which applicants are subjected.

A meeting of the holders of Spanish bonds was held to-day, and a committee appointed to vigorously oppose the threatened tax of 18 per cent. on Spanish coupons.

An address to Napoleon is circulating for signature among the officers and soldiers who served under the Empire. When it has a sufficient number of signatures it will be forwarded to Chiselhurst. Its contents have not been made public.

THE DISARMAMENT OF THE NATIONAL GUARD.

PARIS, Oct. 31—The disarmament of the National Guard throughout France is nearly completed.

The General Council of Corsica is engaged in hot discussion over the motion to annul the election of Conti, formerly Private Secretary fot he late Emperor.

Mechanics' Institute.

The general annual meeting of the subscribers of the Mechanics' Institute was held last evening, when the usual reports were read and the election of officers was conducted. The following gentlemen were elected:—F. J. Roscoe, President; Chas. Good, Treasurer; E. Johnson, Secretary; Committee of Management—Dr. Ash, Dr. Tolmie, Messrs. Fell, Leech, W. Wilson and R. Wolfenden. A motion to reduce the number of the committee from 13 to 9 was carried. A vote of thanks to the retiring officers was also carried.

Notices of motion to change the name of the Institute, to reduce the terms of subscriptions, and to incorporate the Institute, as suggested in the following report (which was received), were given, and will be brought up at a future meeting.

ANNUAL REPORT.

Your Committee, in retiring from office at the close of the year, desire to congratulate members on the fact of the Institute being out of debt; heavy outstanding liabilities have been liquidated during the past, and with the coming year this difficulty will no longer exist. Many valuable books have been added to our shelves in the last twelve months, to the extent of about 160 volumes, and arrangements have been made for securing a regular supply of new and interesting works, at moderate cost, from England.

There are one or two points to which your Committee desire to draw attention, in order that some action may be taken this evening: 1st, the amount of yearly subscription. It is held by many that this is too high, and that a greater amount of prosperity would ensue to the Institution if it were lowered to $6 for the yearly and $4 for the half-yearly, instead of $10 and $5 as now.

It will therefore be moved that the amount be so lowered, provided that 150 entirely new members can be found to come forward and put down their names. This arrangement, of course, pre-supposes that nearly all the monthly subscribers will take advantage of the arrangement and pay $6 instead of $12 per annum, while the trouble and expense of the monthly collections will be avoided.

The next subject is that the Institute be duly incorporated under the Act of 1871.

The current expenditure of the Institute for the year may be fairly estimated at $2100, made up as follows: Rent, $480; gas, $220; Librarian, $840; periodicals, books and papers, $500; miscellaneous, $50; coal, $60. It will thus be plainly seen that while our average receipts from subscriptions amount only to $1,838, our average expenditure reaches $2,100, and that we depend on extraneous aid, such as entertainments and picnics, to make up the sum we are short—a state of things, at the best, objectionable. It is with this view we recommend the adoption of a lower scale of charges, which, it is estimated, would result as follows:

150 new yearly subscribers	$ 900
70 old yearly and half-yearly subscribers	420
60 monthly subscribers changing to yearly	360
40 yearly	480
Is a total yearly sum of	$2,160

Such a result being attained, it would then be well to seek additional funds in the way of entertainments, which ought to be devoted to the purchase of new books. Should the stipulated number of new subscribers not come forward, no change to be made.

We desire to take this opportunity of thanking the officers of H.M.S. Zealous, Capt. Starr, and the public generally, for their kind aid given towards supporting the Institute, by performance at the Theatre, use of steamers, and by general patronage of picnics and other entertainments given in aid of our funds.

In conclusion, the outgoing Committee would venture to express a hope that the officers for the coming year will use their best endeavors to have the Institute as free from debt as they find it.

PASSENGER LIST.—The following is the passenger list of the steamer Prince Alfred: Mrs. J. Langley, and two children, Mrs. J. Woodward, Mrs. C. Walker, Miss C. McQuade, Mrs S. A. Maskey, Col. C. Bird, wife and child, J. S. Armstrong, J. A. Woodward, H. Brackman, E. Jones, Dr. G. Chismore, F. M. Ring, Major Downie, C. Walker, T. F. O'Neil Lon Cox, P. Cargotich, Mrs. Goldsmith, S. W. Light, J. Pannon, H. S. Hayes, W. Skim, F. A. Barker, H. Work and wife, and 20 in the steerage.

TREASURE SHIPMENT.—The following is Messrs. Wells, Fargo & Co.'s statement of the amount of treasure shipped by them per Prince Alfred for San Francisco:—

Bank British Columbia	$33,130 90
Bank British North America	19,746 79
Wells, Fargo & Co.	22,531 66
Total	$75,409 35

MUNICIPAL ELECTION.—The election for Mayor and Councillors for the city will take place to-day. There will be no opposition to Mr. Macdonald as Mayor, but it will be no easy matter to obtain six Councillors. We anticipate, however, most of those at present in the Board will be elected to a second term.

SOCIAL.—A repetition of the readings, music, speeches, etc., which usually make up the Social party at the Wesleyan Church, will be given this evening.

In order to make room for the Library reports, we were compelled to defer publication of most of our telegraphic and other interesting matter.

What Next?

EDITOR STANDARD:—The talk and excitement attendant on our local elections having subsided, much speculation and conjecture is now going on here as to who shall be the lucky man in the approaching election for the Dominion Parliament. Two good men, Messrs. Jessop and Wallace, have been before the electors for some months past, but a few disaffected individuals, whom it would appear have but little political principle to take their stand upon, are buzzing the country round with a somewhat attenuated piece of paper which they call a requisition, in favor of a certain medical gentleman of good standing in your city, and trying at the same time to create a prejudice against the two gentlemen already mentioned; the first, on the ground that the affairs of the church might receive more attention at his hands than the affairs of the state, and the other because he happens to be a Wharf street merchant, and if sent to Ottawa might deluge this country with butter and other provisions, or, in short, have an eye to business, to the utter neglect of his parliamentary duties. This third party being only connected with pills, powders and perfumes, is *ergo* the best man. It is, in my opinion, a piece of mere vulgar claptrap to object to these gentlemen on any such grounds. The question for the electors really is not what is or is not the profession or business of a candidate, but what are his political claims to their confidence? Both gentlemen referred to are sound politicians, above the average in ability and education, thoroughly representative of that class from which in the future our best legislators are to be drawn—the working class. However, should a third party be induced to enter the lists, I am afraid he will find his supporters to be few and far between, and that the majority of the electors of Vancouver District will not be drawn aside even with the aid of a pair of tweesers.

VOTER.

Lake, Nov. 4th, 1871.

The European and the American Railroad.

A Philadelphia exchange says: It is estimated that the transit to and from Europe, via the Rangor and Halifax railwry, will be lessened forty hours, as compared with that by ocean steamer between New York and Halifax. The people of the latter city claim that steamships will traverse the Atlantic between it and Galway in five days. * * * Steamers en route from Liverpool to New York, or *vice versa*, might enter into arrangements to take or land passengers at Halifax, and then proceed on their voyage with their enormous and valauble freights in merchandise. It were certainly desirable that the time of ocean passenger transport should be lessened, for a saving of two and a-half or three days of the tedium, if not peril, of an ocean passage is an important thing. The railway transit between Halifax and New York is estimated at thirty hours, and the distance something less than a thousand miles.

The St. John's *Daily Telegraph* of October 19th states that twenty years ago a number of gentlemen in New England, Nova Scotia and New Brunswick project the title indicates was intended to secure a short, if not the shortest sea route to Europe, to the people of the United States and Canada, by extending a line of railroad from a point in New England, connecting with Western railroads built or projected, with a seaport on the eastern coast of Nova Scotia, so as to reduce the sea voyage to one not exceeding 2,000 miles in length. Though there were then, as now, several points of embarkation for Europe named on the Nova Scotia coast, and two rival routes of reaching it, yet practically the project came to be known as one for connecting Bangor with Halifax by railroad.

As the reader is aware the section of the road from Bangor, Maine, to St. John's, New Brunswick, was recently opened, and grand celebrations inaugurated more especially at the former place. The local business of the line, which is fed by numerous branch roads in Maine and New Brunswick is already very large. This road connects New Brunswick with the whole railroad system of the United States, and with the completion of the road through Nova Scotia, seems destined to become the great short highway to Europe. The St. John's *Telegraph* above referred to contains a lengthy description of the new road, and pays high tribute to the substantial manner in which it is built.

BANGOR, Me., Oct. 18.

The city is crowded with visitors to see President Grant and to witness the ceremony attendant upon opening the European and North American Railroad. Flags, triumphal arches, &c., stretch from one end to the other end of the town. A procession marched through the streets, cheered by the assembled thousands.

A collation was subsequently partaken of at Nurumburg Hall, after which the Mayor welcomed the guests and proposed the health of President Grant which was received with cheers.

The President congratulated the assembly upon the completion of the road which so much interests Bangor in particular and the nation at large.

Senator Hamlin proposed the health of the Governor General of Canada.

Lord Lisgar hoped that they would believe that he was exceedingly gratified to be received as the representative of Canada. He congratulated them upon the success of their enterprise, which is to unite two countries He had often heard that bitterness existed in this country towards Great Britain, and especially in New England. (Cries of "No, no.") But since what he had witnessed the past few days, he thought this statement should be received with qualification. There ought to be a union of hearts; and when he saw the Union Jack floating side by side with the Starry flag, he felt that bitterness was not wholly unreconcilable. He alluded to the treaty of Washington amid loud cheering, hoping old animosities were forever buried out of sight. The treaty, he said, had been severely criticised; but for England he would say that there was not a statesman in the land but would be proud to have his name enrolled upon it. The honor of completing this treaty had in this country fallen upon President Grant (cheers,) and so long as reason says "peace has triumphs as well as war," this will be mentioned to his honor And equal honor rests on Mr. Gladstone and his colleagues for this, as well as their treatment of Ireland.

At the close of this speech three cheers were given for the Queen of England.

Speeches were also made by Gov. Perham, of Maine, Gov. Wilmot, of New Brunswick, Hon. Dr. Tupper, Hon. J. Howe, and others.

Ghosts.

[Saturday Review.]

As the departments of visionary experience are many and varied, various principles of hypothetical explantion are necessary to meet them. Haunted houses, for instance, in a vast number of cases have been satisfactorily excercised by the accidental discovery of collusion; and the long array of dreams, wraiths, and warnings, among which there are some really remarkable occurrences resting on really complete testimony, are still painfully open to attack on the ground of coincidence and association. Collusion, accidental coincidence and even the infinitely ramified agency of brain-association, will not, taken singly, go a very great way in the work of disillusion; but, when taken and applied conjointly, they are very damaging to the "night side of nature."

Firm believers who are hardened to an habitual resistance against the pressure of impartial investigation might ponder with advantage some of the remarks on this question which Coleridge left behind him. His reply to the lady who asked him point-blank whether he believed in ghosts, "No, ma'am, I have seen too many," is about the most suggestive comment on spectral phenomena that ever was made. With a brain like his, full of the acutest sensibility and the strongest creative power by nature, and having these innate qualities intensified during a long period of life by eccentricity of habit, Coleridge had been personally cognisant of so many appearances presenting themselves to his eye with all the marks of objectivity, yet demonstrably thrown outward from within, that he refused to credit any interpretation of such phenomena which started on the hypothesis of an external existence. He used stoutly to deny that a visible substance, without susceptibility of impact, with the single exception of shadows from real objects, is anything but an absurdity. Unless there be an external substance, he argued, the bodily eye cannot see it; therefore, in all such cases, that which is supposed to be seen is, in fact, not seen, but is an image of the brain. This to some extent was the theory of our contemporary's correspondent in reference to his Promethean wings; only he first complicated the whole business with the film upon his eye, and then appeared in the conclusion of his letter to be more than half inclined to desert his material hypothesis altogether. If even Coleridge fails to throw light upon these dark passages of observation, we would suggest to an inquirer that he should make friends with the house-surgeon of some large hospital, or with a really intelligent night-nurse, and get them to detail there experiences of what may be called objective delirium. We question whether any such functionary would consider the story of the rustling and flapping wings worth a single moment's consideration, in spite of all the assurances of the narrator that wide-awake he must have been, and was. The incredulity inside the walls of a hospital would probably reach a point even higher than Coleridge's, for there it becomes a duty actually to treat people for the seeing of ghosts, than which a more completely disillusionising process can hardly be conceived.

There is one assertion, however, that Coleridge used to adhere to about ghosts, in which we think he very probably was wrong. He did not admit that, in the great majority of cases any real conviction of the supernatural existed in the mind of the spectator. He had no sort of idea of a man seeing a ghost over-night, believing that it was a ghost, and then coming down to breakfast next morning in his usual health, or with no more than a slight headache. If the supernatural character of the apparition had been for one moment believed, then he held that the effects upon the seer had been always most terrible—convulsion, idiocy, madness, or even death on the spot. This doctrine he supported by the narrative of the American student who resolved to convert a "Tom Pairish" companion by appearing as a ghost before him. The story is well known. He extracted the ball from the pistol which his friend used to keep at the head of his bed and then made his appearance in the dead of night. He was recognise at once, and refusing to be joked and bantered on the spot, he was threatened with a ball through the body if he were not gone before the expiration of three minutes. The three minutes went by, and the pistol was fired; when, with a scream at the immobility of the figure, the incredulous man became convulsed and afterwards died This story, or many similar stories, cannot be regardad as enough to demonstrate Coleridge's proposition that the very instant a ghost is believed to be a ghost, human nature collapses before it. The degrees of susceptibility to terror in different brains are notoriously wide apart; and we have all probably known one or more men in the circle of our own acquaintance whose presence of mind would, we feel, have been equal to such a shock as this. Had the man in question possessed a little more stamina, enough to tide him over the first shock of surprise (and that is by no means an inconceivable amount), he would have gone on observing even though he had still remained under the impression that he was in the presence of the supernatural, until the *ignotum* would have become familiar and would have lost its terrific character. It is hard to believe that men possessing, even in a rudimentary degree, the type of mind of a Goethe or Scott, or of a Nelson or Byron, would have fallen prostrate as hopelessly as the American student did. The Duke of Wellington was once in danger at sea, when, just before bedtime, the captain came to his cabin, and announced that in a very few minutes all would be over. "Very well," said the Duke, "then I shall not take off my boots." The habit of mind that can receive such a shock in such a way would be assuredly equal to receiving any shock whatever without the risk of convulsion or idiocy. *Imperidum ferient ruinæ.* And such a habit of mind may and does coexist with powers of intellect far below the level of a Duke of Wellington. To go further, the collapse in the American story followed not only upon a belief in the supernatural character of the apparition, but upon that belief being superinduced in the most violent and disturbing manner. The man had wound himself up to the point of resolving to shoot his friend, and that of itself involved no mean degree of excitement. The reaction, after perpetrating that particular act upon that particular person, the latter still continuing to hold his ground unmoved, represented something a good deal in excess of a simple conviction that an apparition seen by the eye is supernatural. One further remark may yet be added—namely, that if this certainly to collapse on believing a spectral object to be supernatural is really a characteristic of humanity, it has come to be so within quite modern times. To say nothing of antiquity, it is certain that throughout the whole of mediæval Europe the belief in the reality of spiritual visitations was so common that, though they never failed to inspire awe and terror in some degree, yet there were at any moment a large number of persons living at the same time who had as little doubt of their having beheld the supernatural as they had of their own existence. Luther, at any rate, lived to tell the tale, on more than one occasion, with no apparent diminution of health and spirits.

To recur to the main question of these phenomena, apart from this subordinate one of whether men can on such occasions really believe their eyes with impunity; we may remark that, after the enormous deductions from reported cases that may be made by applying some such rational tests and considerations as we have mentioned, a margin of the unexplained will never cease to be left behind. The nature of the human brain itself, with its endless minute varieties of structure and condition, and its exceedingly delicate organisation, is one source of this permanent residuum. Our intuitions of an unseen world are another; and these, while sometimes corrected, are also largely stimulated, by religious convictions and beliefs.

DR. CHING FUR.—A CARD.—EDITOR STANDARD:—Through the medium of your paper I want to state the very great good that has been done me by Dr. Ching Fur, of this city, next door to Kong Lee & Co. For 24 years I suffered with neuralgia on the brain, which baffled the skill of three first-class American physicians. Lately it became affected my right lung, and my eye became painfully inflamed. Despairing of ever being cured I placed myself as a last resort in the hands of Dr. Ching Fur, and after five months treatment I am a well man, and feel that I cannot sound the eminent Chinese physician's praises too highly, so that all my countrymen similarly affected may visit and find relief. Respectfully,

JOHN RENTON, of Kentucky, U. S.

Victoria, B. C., Sept. 1870. oc22
